*The card security code (CSC) is a 3 or 4 digit number that is not part of the credit card number. The number appears only on the card itself (not on receipts or statements), so it provides some assurance that the physical card is in your possession. This helps us reduce fraud. On Visa/MasterCard/Discover the 3 digit number is the last 3 numbers located on the back panel of the card. American Express the 4 digit number is non-embossed on the front of the card.
